**A Revolutionary Navigation Device**

<b>4G</b> <b>4G LTE Network</b> SIM Card Slot available for freely internet surfing	<b>DSP</b> <b>Digital Sound Processor</b> 48EQ + Audio Delay to improve the sound quality	<b>360°</b> <b>360° Panorama Optional</b> Built-in 360° Camera for easy and safe driving
<b>8</b> <b>8-core CPU 1.8GHz</b> 12nm ARM Cortex A72/A73 + A53x4	<b>6+128G</b> <b>Ram+Rom up to 6G+128G</b> 3+32G   4+64G   6+128G available for option	<b>1280x720 IPS</b> <b>1280x720 IPS Display</b> High Definition Display at any viewing angle
<b>Split Screen Multitasking</b> Freestyle Combination Split Screen multi-tasking UI	<b>Ambient Light Control</b> Smart Control App available for Ambient Light	<b>USB Quick-Charger</b> One USB Interface supports quick-charger
<b>HDMI Output available</b> Support 1080P Video Output through HDMI	<b>Digital Audio Output Support</b> Support Optical & Coaxial lossless digital audio output	<b>Support 2 Cameras</b> Support Front & Rear view camera connected

USB QUICK-CHARGER

### USB Quick Charger Available for Phone Charger

For the first time the device supports USB-port fast charging technology, but please note only one of the three USB ports supports mobile phone fast charging.  
(Please don't connect TPMS/DVR on that USB port)

4G LTE NETWORK

### Built-in 4G LTE & 5G WiFi Freely Internet Surfing

With the built-in 4G LTE & 5G WiFi, the device can surf internet freely. By inserting a SIM card, you can also use the device as a hotspot to connect other WiFi enabled devices too (smart phone, PC, tablet PC...)

Good News: This device can make phone calls if the SIM Card support VoLTE

CPU COOLING SYSTEM

### CPU in Double Protection With Cooling Fan & Well-designed Heat Sink

With a cooling fan and the special designed heat sink, the CPU board is in double protection to keep at a lower temperature when on working.

In the picture, the heat dissipation plate for CPU board is separate from the main heat sink, which reduced the heat transfer between CPU and amplifier IC, it can protect the CPU at a lower temperature when playing audio and video programs.

Auto Manual

CPU 52°C

In fact, a cooling fan is not necessary as the device uses a 12nm lowest power consumption chipset. But we still add a fan here to double-protect the CPU board since this device can run multi-functions at the same time.

MULTITASKING SCREEN

## Multitasking Main Screen Freestyle Combination Split Screen

It uses innovative multitasking split screen technology that allows the device to run Navigation or Video or DVR, display TPMS or DVR ADAS info, control radio or music player at the same time on the Main Screen.

Switch between DVR & TPMS

Switch between Navigation DVR and Video

Add your favorite apps here

Switch between Radio & Music Player automatically

Press and hold on to come out Navi | DVR | Video switch bar

Right Lane Departure Warning

Front Car Movement Reminder

Forward Collision Warning

Left Lane Departure Warning

ADAS: Advanced Driving Alarm System is useful to keep your driving safer (Need to buy Ownice V3 DVR).

1280\*720 IPS

1280\*720  
IPS

1280\*720 IPS Display

Clear at Any Viewing Angle

The device uses 1280\*720 IPS display, which makes it possible to enjoy viewing on a big screen without eye fatigue or discomfort from any angle. Catch every single crisp, clear and vibrant picture from expansive 178° viewing angle.

6-CHANNEL DSP

DSP

Built-in DSP

6-Channel DSP Supports 6 Speakers

The built-in DSP (chip Rohm32107) improves the car audio system to a high-end. It is an absolute must if you are a music enthusiast and want to listen to music at a high-quality sound level, feels like the band is playing inside your car!

48 SEGMENT EQ

48

SEGMENT

EQ

48 Segment EQ adjustment. These help in fine-tuning the music of your car to your specific taste as well as the acoustic profile of your car.

DELAY SETTING

Time Alignment Setting

User can calibrate the time (delay or speed up) for each speaker, to ensure that their sound reaches the driver position at the same time. The end result is that you will be blown away by the realistic nature of the sound stage.

OPTICAL & COAXIAL

Optical and Coaxial Digital Audio Output

The device has Optical fiber and Coaxial output to reduce the noise floor and maximize the effect of transforming the sound, it is very useful for original cars with amplifier which support digital audio input
