Built-in 9 Language Commands

Hands-Free to Ensure Driving Safety

USB QUICK-CHARGER

USB Quick Charger Available for Phone Charger

For the first time the device supports USB-port fast charging technology, but please note only one of the three USB ports supports mobile phone fast charging.
(Please don't connect TPMS/DVR on that USB port)

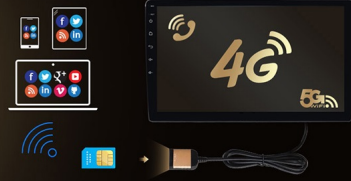

4G LTE NETWORK

Built-in 4G LTE & 5G WiFi Freely Internet Surfing

With the built-in 4G LTE & 5G WiFi, the device can surf internet freely. By inserting a SIM card, you can also use the device as a hotspot to connect other WiFi enabled devices too (smart phone, PC, tablet PC...)

Good News: This device can make phone calls if the SIM Card support VoLTE

CPU COOLING SYSTEM

CPU in Double Protection With Cooling Fan & Well-designed Heat Sink

With a cooling fan and the special designed heat sink, the CPU board is in double protection to keep at a lower temperature when on working.

In the picture, the heat dissipation plate for CPU board is separate from the main heat sink, which reduced the heat transfer between CPU and amplifier IC, it can protect the CPU at a lower temperature when playing audio and video programs.

Auto Manual

CPU 52°C

In fact, a cooling fan is not necessary as the device uses a 12nm lowest power consumption chipset. But we still add a fan here to double-protect the CPU board since this device can run multi-functions at the same time.

6-CHANNEL DSP

DSP

Built-in DSP

6-Channel DSP Supports 6 Speakers

The built-in DSP (chip Rohm32107) improves the car audio system to a high-end. It is an absolute must if you are a music enthusiast and want to listen to music at a high-quality sound level, feels like the band is playing inside your car!

48 SEGMENT EQ

48 SEGMENT EQ

48 Segment EQ

48 Segment EQ adjustment. These help in fine-tuning the music of your car to your specific taste as well as the acoustic profile of your car.

DELAY SETTING

Time Alignment Setting

User can calibrate the time (delay or speed up) for each speaker, to ensure that their sound reaches the driver position at the same time. The end result is that you will be blown away by the realistic nature of the sound stage.

OPTICAL & COAXIAL

Optical and Coaxial Digital Audio Output

The device has Optical fiber and Coaxial output to reduce the noise floor and maximize the effect of transforming the sound, it is very useful for original cars with amplifier which support digital audio input
