6-CHANNEL DSP

DSP

Built-in DSP

6-Channel DSP Supports 6 Speakers

The built-in DSP (chip Rohm32107) improves the car audio system to a high-end. It is an absolute must if you are a music enthusiast and want to listen to music at a high-quality sound level, feels like the band is playing inside your car!

48 SEGMENT EQ

48

SEGMENT

EQ

48 Segment EQ adjustment. These help in fine-tuning the music of your car to your specific taste as well as the acoustic profile of your car.

DELAY SETTING

Time Alignment Setting

User can calibrate the time (delay or speed up) for each speaker, to ensure that their sound reaches the driver position at the same time. The end result is that you will be blown away by the realistic nature of the sound stage.

OPTICAL & COAXIAL

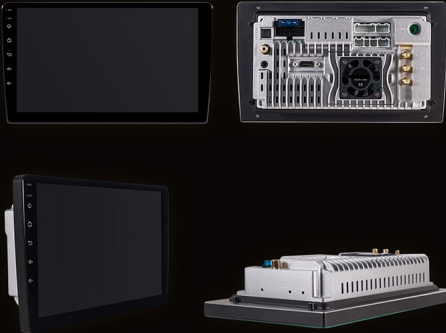

Optical and Coaxial Digital Audio Output

The device has Optical fiber and Coaxial output to reduce the noise floor and maximize the effect of transforming the sound, it is very useful for original cars with amplifier which support digital audio input
