Hands-Free to Ensure Driving Safety

3 / 10

USB QUICK-CHARGER

### USB Quick Charger Available for Phone Charger

For the first time the device supports USB-port fast charging technology, but please note only one of the three USB ports supports mobile phone fast charging.  
(Please don't connect TPMS/DVR on that USB port)

4G LTE NETWORK

### Built-in 4G LTE & 5G WiFi Freely Internet Surfing

With the built-in 4G LTE & 5G WiFi, the device can surf internet freely. By inserting a SIM card, you can also use the device as a hotspot to connect other WiFi enabled devices too (smart phone, PC, tablet PC...)

Good News: This device can make phone calls if the SIM Card support VoLTE

CPU COOLING SYSTEM

### CPU in Double Protection With Cooling Fan & Well-designed Heat Sink

With a cooling fan and the special designed heat sink, the CPU board is in double protection to keep at a lower temperature when on working.

In the picture, the heat dissipation plate for CPU board is separate from the main heat sink, which reduced the heat transfer between CPU and amplifier IC, it can protect the CPU at a lower temperature when playing audio and video programs.

Auto Manual

CPU 52°C

In fact, a cooling fan is not necessary as the device uses a 12nm lowest power consumption chipset. But we still add a fan here to double-protect the CPU board since this device can run multi-functions at the same time.

MULTITASKING SCREEN

Multitasking Main Screen

Freestyle Combination Split Screen

It uses innovative multitasking split screen technology that allows the device to run Navigation or Video or DVR, display TPMS or DVR ADAS info, control radio or music player at the same time on the Main Screen.
