Descrizione

C970: 8-CANALI DSP | WiFi | 8core |
Android 10 | 2.5D + IPS MONITOR

IVECO DAYLI 2014-2018

C970

Integrated All Functions on The Market

360°
Android 8.0

DSP
4G

1280x720
IPS

A Revolutionary Navigation Device

4G

4G LTE Network
SIM Card Slot available for freely internet surfing

DSP

Digital Sound Processor
4Bqz + Audio Delay to improve the sound quality

360°

360° Panorama Optional
Built-in 360° Camera for easy and safe driving

8

8core CPU 1.8GHz
12nm ARM Cortex A75x2 + A55x6

6+128G

Ram+Rom up to 6G+128G
3+32G | 4+64G | 6+128G available for option

1280x720 IPS

1280x720 IPS Display
High Definition Display at any viewing angle

80

Split Screen Multitasking
Freely Combination Split Screen multi-tasking UI

Ambient Light Control

Smart Control App available for Ambient Light

USB Quick-Charger

One USB Interface supports quick-charger

HDMI Output available

Support 1080P Video Output through HDMI

Digital Audio Output Support

Support Optical & Coaxial lossless digital audio output

Support 2 Cameras

Support Front & Rear view camera connected

2 / 8

USB QUICK-CHARGER

USB Quick Charger Available for Phone Charger

For the first time the device supports USB-port fast charging technology, but please note only one of the three USB ports supports mobile phone fast charging.
(Please don't connect TPMS/DVR on that USB port)

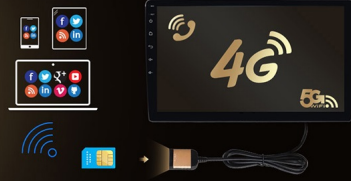

4G LTE NETWORK

Built-in 4G LTE & 5G WiFi Freely Internet Surfing

With the built-in 4G LTE & 5G WiFi, the device can surf internet freely. By inserting a SIM card, you can also use the device as a hotspot to connect other WiFi enabled devices too (smart phone, PC, tablet PC...)

Good News: This device can make phone calls if the SIM Card support VoLTE

CPU COOLING SYSTEM

CPU in Double Protection With Cooling Fan & Well-designed Heat Sink

With a cooling fan and the special designed heat sink, the CPU board is in double protection to keep at a lower temperature when on working.

In the picture, the heat dissipation plate for CPU board is separate from the main heat sink, which reduced the heat transfer between CPU and amplifier IC, it can protect the CPU at a lower temperature when playing audio and video programs.

Auto Manual

CPU 52°C

In fact, a cooling fan is not necessary as the device uses a 12nm lowest power consumption chipset. But we still add a fan here to double-protect the CPU board since this device can run multi-functions at the same time.

MULTITASKING SCREEN

Multitasking Main Screen

Freestyle Combination Split Screen

It uses innovative multitasking split screen technology that allows the device to run Navigation or Video or DVR, display TPMS or DVR ADAS info, control radio or music player at the same time on the Main Screen.

Switch between DVR & TPMS

6-CHANNEL DSP

DSP

Built-in DSP

6-Channel DSP Supports 6 Speakers

The built-in DSP (chip Rohm32107) improves the car audio system to a high-end. It is an absolute must if you are a music enthusiast and want to listen to music at a high-quality sound level, feels like the band is playing inside your car!

48 SEGMENT EQ

48 SEGMENT EQ

48 Segment EQ

48 Segment EQ adjustment. These help in fine-tuning the music of your car to your specific taste as well as the acoustic profile of your car.

DELAY SETTING

Time Alignment Setting

User can calibrate the time (delay or speed up) for each speaker, to ensure that their sound reaches the driver position at the same time. The end result is that you will be blown away by the realistic nature of the sound stage.

OPTICAL & COAXIAL

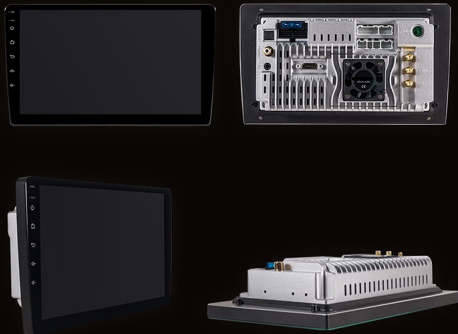

Optical and Coaxial Digital Audio Output

The device has Optical fiber and Coaxial output to reduce the noise floor and maximize the effect of transforming the sound, it is very useful for original cars with amplifier which support digital audio input
