Radio

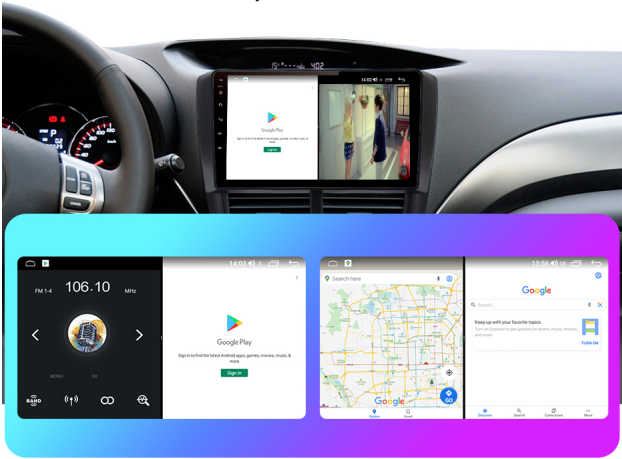

Bluetooth 5.0

We will give you 3 USB2.0 cables to support high-speea data transmission. This is much faster than most original car USB functions,but not 100% of all models.

We storngly recommend that you use the USB cable we distribute,which will greatly improve the stability of some software that depends on USB.

Split Screen

DSP 32 Equalizer Adjustments

we have a powerful DSP chip,we support 32 equalizer adjustments which means you have more power to control the sound of various frequencies.

DSP Operation User Interface

Support Carplay System
